

Finney Solomon Kote

Full Stack Developer

OBJECTIVE

My career goal is to excel as a Full-Stack Developer, combining my technical ability in front-end and back-end technologies with creative UI/UX design skills using Figma. I aspire to create seamless and visually appealing web applications that prioritize user experience and functionality. By working in a collaborative environment, I aim to contribute to innovative projects that challenge me to constantly grow and deliver exceptional user-centric solutions that leave a lasting impact.

EXPERIENCE

MAY 2022 - PRESENT

Front-End Developer & UI/UX Designer | COMTRONUS LLP | Vizag

I am a **Front-End Developer & UI/UX Designer** specializing in healthcare products, proficient in React and Material-UI. I ensure seamless user experiences, responsive designs, and best performance across devices and browsers. My collaboration with back-end developers strengthens the integration of front-end components with server-side logic. Using Figma, I craft visually appealing and user-centric interfaces. Currently, I'm contributing to the **Labgen** project at **COMTRONUS LLP**, Vizag, elevating healthcare technology with my ability.

OCT 2021 - FEB 2022

Android Developer | SHA Associates | Vizag

As an Android Developer with ability in Kotlin, I have undergone comprehensive training and got hands-on experience in designing and developing mobile applications.

PROJECTS

Inventory Management using HTML, CSS, Bootstrap and JavaScript for Front End, ASP. Net for Back-End and Postgres SQL for Database Management.

Home Automation with Fire Detection using I.O.T based systems.
Life Saving Health Monitoring System based on I.O.T.

SKILLS

Front-End Development: React JS, Redux, HTML, CSS, JavaScript, MUI and Next UI

Back-End Development: ASP. Net, Node JS and Express.js.

Databases: PostgreSQL and MongoDB.

Languages: C++ and C#

Version Control: Git, GitHub.

UI/UX Design: Figma.

Other: RESTful APIs.
